Port Pass Pro - Visitor Request Guide

This document provides step-by-step instructions for submitting and tracking a visitor request using the internal portal at **http://localhost:5173/visitor-request**.

Submitting a New Request

By default, you will land on the **New Request** tab, which consists of a 3-step process:

Step 1: Requester (Your Information)

This section is for the details of the person *submitting* the request (the internal employee).

- **Your Name:** Enter your full name *(Required)*.
- **Email Address:** Enter your company email address *(Required)*. You will need this later to track the request.
- **Phone Number:** Enter your contact number *(Optional)*.

Click **Next Step** to proceed.

Step 2: Visitor Details

This section is for the details of the *guest* who will be visiting the port.

- **Visitor Name:** Enter the guest's full name *(Required)*.
- **NIC / Passport:** Enter their national ID card or passport number. They will need to present this at the gate *(Required)*.
- **Visitor Phone:** The guest's contact number *(Optional)*.
- **Company / Organization:** The company the guest is representing *(Optional)*.

Click **Next Step** to proceed.

Step 3: Visit Info

This section specifies the logistics and routing of the visit.

- **Purpose of Visit:** Briefly describe why they are visiting (e.g., "Maintenance", "Sales Meeting") *(Required)*.
- **Department to Visit:** Select the internal department the visitor is going to from the dropdown menu *(Required)*. This request will automatically route to that department's manager for approval.
- **Date & Time:** Select the expected Entry and Exit dates/times. *Note: You can only schedule visits up to 30 days in advance (Required).*
- **Zones to Access:** Select one or more areas the visitor needs access to (e.g., Zone 1 Office, Zone 2 Warehouse) *(Required)*.
- **Vehicle Number:** If the visitor is bringing a car, enter the license plate number *(Optional)*.

Click **Submit Request** to finalize.

Tracking Your Request

Once submitted, you will be given a **Request ID**. To check if the pass has been approved:

1. Go to the **Track Request** tab at the top of the page.
2. Enter your **Request ID**.
3. Enter the **Email Address** you used in Step 1.
4. Click **Track Status**.

The system will show if the request is *Pending Department Approval*, *Awaiting Security Verification*, *Issued*, or *Rejected*.

> **Note on Group Passes:** The third tab, "Group Pass Issue", is restricted. It can only be accessed by authorized Department Managers or Administrators who have signed into the system.
